Category Performance Overview

Category	Total Sales	Sales %	Total Profit	Profit %	Profit Margin %	Avg Discount
Technology	\$836,154	36.4%	\$145,455	50.8%	17.40%	13.23%
Furniture	\$742,000	32.3%	\$18,451	6.4%	2.49%	17.39%
Office Supplies	\$719,047	31.3%	\$122,491	42.8%	17.04%	15.73%

Key Insights:

- **Technology** is the top performing category with the highest **sales \$846K** (36%), **profit \$145K** (50%) & **profit margin** of 17.5%.
- **Office Supplies** is second best performing with **sales of \$719K** (31%), **profit of \$122K** (43%), and **margin of 17%**.
- **Furniture** has the **lowest profit margin of just 2.49%**, while contributing nearly **32% (\$742K) in Sales**, it also has highest **discount average (17.4%)**.
- Technology and Office Supplies together contribute more than 93% of total profit, while Furniture contributes minimal despite having high sales.

Central	\$501K	21.8%
East	\$679K	29.5%
South	\$392K	17.1%

Sales and Profit by Region

Top 10 by States by Sales

Profit by States (top 10 Sales state)

Key Insights:

- The West is the strongest-performing region, generating the highest **sales (\$725K)** and the highest **profit (\$108K)**.
- The East and South regions show moderate performance, contributing **\$679K and \$392K in sales**, and **\$92K and \$47K in profit**, respectively.
- The Central region is the weakest performer.** Despite generating **\$501K in sales**, it produces only **\$39.7K in profit**, the lowest among all regions.
- High sales do not always translate into high profitability. For example, Texas, the third-highest contributing state in terms of sales (\$170K), records a loss of \$26K in profit.
- Out of the top 10 states by sales, half are operating at a loss, which is a significant concern.**

Profit & Profit Margin (%) by Discount Bins

Sales and Profit by Discount Bins

Sales and Profit by Discount Bins

S.No.	Discount Bins	Sum of Sales	Sum of Profit	Profit Margin
1	No Discount	\$1,087,908.47	\$320,987.60	29.51%
2	1-15%	\$81,927.87	\$10,448.17	12.75%
3	16-30%	\$867,821.02	\$79,968.03	9.21%
4	31-45%	\$136,396.22	(\$27,941.30)	-20.49%
5	> 45%	\$123,147.28	(\$97,065.48)	-78.82%

Key Insights:

- Orders with **no discount** contribute the most to business performance, generating **\$1.09M in sales** and **\$321K in profit**, with an impressive **29.51% profit margin**.
- Profit margins become **negative when discounts exceed 20%**, indicating that higher discount strategies are eroding overall profitability.
- Nearly **9% of all orders** carry discounts above **45%**, which is alarming because these heavily discounted orders consistently lead to losses.
